

# Partner with Austin Community College

## Why Choose Us

The Office of Experiential Learning helps you connect with students and faculty to create meaningful, flexible partnerships.

Partner with ACC to access motivated talent, reduce hiring costs, and strengthen your community impact—all while helping students launch successful careers. From businesses and nonprofits to community organizations, there's a partnership model designed for your goals and capacity.

- ✓ **Internships**  
Partner with ACC to build your talent pipeline by hosting interns who bring fresh perspectives and up-to-date skills while completing their degrees. Internships offer a cost-effective way to evaluate and develop future employees before making full-time hiring decisions.
- ✓ **Apprenticeships**  
The ACC Apprenticeship Program empowers local students and employers by combining paid on-the-job training with guided classroom instruction to build high-value careers in fields like advanced manufacturing, healthcare, IT, and more. Students contribute in real work settings from day one while earning nationally recognized credentials and college credit. For your organization, it's a turn-key way to cultivate a skilled workforce tailored to your needs—with reduced recruitment costs, greater employee retention, and access to a proven pipeline of trained talent.
- ✓ **Service-Learning**  
Connect your mission to the classroom through ACC's Service-Learning partnerships. Students tackle real-world projects that support your organizational goals while building career-ready skills—and you gain dedicated assistance for your initiatives at no cost. With over 150 nonprofit and government partners already engaged, it's a proven way to expand your impact, meet critical needs, and help shape the next generation of community-minded professionals.
- ✓ **Site Visits**  
Welcome students for short tours or job shadowing to showcase your workplace and career paths. It's a low-commitment way to inspire future talent, raise your organization's profile, and give students a firsthand look at the opportunities your industry offers.
- ✓ **Classroom Speakers**  
Share your industry expertise directly with students in the classroom. Guest speaking requires just an hour or two of your time but creates lasting impact—helping students connect academic concepts to real-world applications while positioning your organization as an industry leader invested in education.

# ACC's academic and career programs

ACC offers hundreds of academic and career pathways that align with Central Texas workforce and industry needs. Our growing number of diverse academic disciplines ensure our career and technical programs provide students with the specific, hands-on skills employers are looking for.
